PROFILE

Artificial Intelligence engineering student at ESPRIT, holding a Bachelor's degree in Multimedia Computer Science from ISAMM. Passionate about software, web, mobile development and artificial intelligence. Experienced in academic and practical projects, with a strong interest in developing innovative and real-world solutions. Quick learner, adaptable and comfortable working in team environments.

EDUCATION

ENGINEERING CYCLE IN ARTIFICIAL INTELLIGENCE
ESPRIT – École Supérieure Privée d'Ingénierie et de Technologies
2026 – Present | Tunisia

BACHELOR'S DEGREE IN MULTIMEDIA COMPUTER SCIENCE
ISAMM – Institut Supérieur des Arts Multimédia de La Manouba
2023 – 2026 | Manouba, Tunisia

High School Diploma in Computer Science
Korba High School, Korba, Tunisia
2019 – 2023 | Korba, Tunisia

ACADEMIC PROJECTS

PFE – Intelligent Claims Collection & Management Platform | Feb. 2026 – May 2026
MAE Assurances | React.js, Django REST Framework, SQLite, Recharts, Leaflet

- Developed a full-stack web platform to centralize, consult, classify and track customer claims from multiple channels.
- Built REST APIs for claims, statuses, categories, internal notes and action history using Django / DRF.
- Created Admin / Agent spaces with role management, agent assignment and profile-based access restrictions.
- Designed an interactive dashboard with statistics, advanced filters, charts, urgency tracking and PDF / Excel export.
- Integrated an interactive map of MAE agencies with Leaflet and implemented authentication, password recovery and automated emails.

Intelligent Healthcare Management & Prediction Platform | Sept. 2025 – Nov. 2025
React.js, Django REST Framework, Python, PostgreSQL, Machine Learning

- Developed an intelligent healthcare platform for patient management, medical appointments and health monitoring.
- Integrated a Machine Learning module for health-risk prediction and a medical-specialty recommendation system.
- Created Admin / Agent spaces with role management, agent assignment and profile-based access restrictions.
- Implemented secure REST APIs, role-based authentication and interactive dashboards for patients, doctors and administrators.

Mobile E-commerce Application | 2025

Java, XML

- Designed and developed a simple Android application with user interface, data management and core e-commerce features.
- Applied development best practices, functional testing and collaborative task distribution.

PROFESSIONAL EXPERIENCE

Customer Service Representative – Les Villas Africa Jade

Seasonal Position | Jun. 2026 – Sep. 2026 | Korba, Tunisia

- Managed customer relations through phone, WhatsApp, Airbnb, Booking.com, TunRooms and Expedia.
- Handled reservations, requests and complaints while providing personalized assistance.
- Contributed to improving customer experience and satisfaction.

B2B Event Coordinator – B2B International

Occasional Collaboration | 2024 – Present | Tunis, Tunisia

- Coordinated professional meetings between Tunisian companies and foreign partners.
- Managed participant reception, company assistance and coordination with operational teams.

EXTRACURRICULAR ACTIVITIES

Active Member – Club J2I (Jeunes Ingénieurs)

ISAMM, La Manouba, Tunisia | 2024 – Present

- Participated in organizing technology-related events
- Collaborated on engineering and development-oriented projects
- Strengthened communication, teamwork, and project management skills
